STATEMENT IN RELATION TO THE PROPOSED SHARE BUY-BACK

1. INTRODUCTION

On 25 September 2025, our Company announced its intention to seek your approval for the Proposed Share Buy-Back at the forthcoming Forty-Second AGM.

This statement serves to provide you with details of the Proposed Share Buy-Back as well as the recommendation of our Board and to seek your approval for the ordinary resolution to be tabled at the forthcoming Forty-Second AGM.

2. PROPOSED SHARE BUY-BACK

Our Board is seeking your approval for the renewal of authority for our Company to purchase and/or hold from time to time and at any time up to 10% of the total number of issued Shares for the time being quoted on Bursa Securities through stockbrokers (pursuant to Paragraph 12.15 of the Listing Requirements), subject to compliance with Section 127 of the Act, the Listing Requirements and other applicable rules and regulation. Based on the total number of issued Shares as at LPD of 11,626,767,901 Shares, our Company may purchase up to a maximum of 1,162,676,790 number of Shares pursuant to the Proposed Share Buy-Back, representing 10% of the total number of issued Shares.

Your authority for the Proposed Share Buy-Back, if renewed, shall be effective upon the passing of the ordinary resolution for the Proposed Share Buy-Back at the Forty-Second AGM, and will remain in effect until the conclusion of the next AGM of our Company, or until the expiry of the period within which the next AGM is required by law to be held, unless revoked or varied by an ordinary resolution of shareholders of our Company in a general meeting, whichever occurs first.

The maximum amount of funds to be allocated for the Proposed Share Buy-Back will be subject to the retained profits of our Company. The Proposed Share Buy-Back will be funded from internally generated funds and/or bank borrowings. As at 30 June 2025, the audited retained profits of our Company stood at RM1,718,458,000.

In accordance with the Listing Requirements, our Company may only purchase the Shares on Bursa Securities at a price which is not more than 15% above the weighted average market price for the Shares for the 5 market days immediately before the purchase(s) and our Company may only resell the treasury shares on Bursa Securities or transfer the treasury shares pursuant to Section 127(7) of the Act at:-

- (a) a price which is not less than the weighted average market price for the Shares for the 5 market days immediately before the resale or transfer; or
- (b) a discounted price of not more than 5% to the weighted average market price for the Shares for the 5 market days immediately before the resale or transfer provided that:
 - (i) the resale or transfer takes place no earlier than 30 days from the date of purchase; and
 - (ii) the resale or transfer price is not less than the cost of purchase of the Shares being resold or transferred.

The authority for the Proposed Share Buy-Back will allow your Directors to exercise the power of our Company to purchase its own Shares at any time within the abovementioned time period using the internal funds and/or bank borrowings of our Company. The actual number of Shares to be purchased will depend on the market conditions and sentiments of the stock market, the availability of the retained profits as well as the financial resources available to our Group. In the event that the Proposed Share Buy-Back is funded by bank borrowings, the amount of bank borrowings will depend on the number of Shares purchased and our Company's repayment capabilities.

Our Directors may deal with the Shares bought back in the following manner:

- (i) cancel the Shares so purchased; and/or
- (ii) retain the Shares so purchased in treasury, to be distributed as dividend to the shareholders and/or to be resold on the market of Bursa Securities and/or transferred for the purposes of or under an employees' share scheme and/or transferred as purchase consideration; and/or
- (iii) retain part of the Shares so purchased as treasury shares and cancel the remainder; and/or
- (iv) deal with the Shares in any other manner as may be permitted by the applicable laws and/or regulations in force from time to time.

Where our Directors intend to retain the Shares so purchased as treasury shares, cancel Shares, or both, an appropriate announcement will be made to Bursa Securities. In the event that our Company ceases to hold all or any part of such Shares as a result of the above actions, our Company may further purchase and/or hold such additional number of Shares (in aggregate with the Shares then still held by our Company) which shall not exceed 10% of the total number of issued Shares of our Company for the time being quoted on Bursa Securities.

If our Board decides to retain the Shares so purchased as treasury shares, it may distribute the treasury shares as dividends to the shareholders and/or resell the Shares so purchased on Bursa Securities and utilise the proceeds for any feasible investment opportunity arising in the future, or as working capital. The treatment of the Shares so purchased and held as treasury shares, whether distributed as dividends, resold on Bursa Securities or cancelled by our Company, will in turn depend on the availability of the retained profits of our Company.

In the event that our Company decides to resell or transfer the treasury shares, our Company will be required to release an announcement on the day of the resale or transfer pursuant to Section 127(7) of the Act, providing details as prescribed by Bursa Securities.

In the event that our Company decides to cancel the treasury shares, our Company must release an announcement on the day the cancellation is made providing details of the number of treasury shares cancelled, the date of cancellation and the outstanding and paid-up capital of our Company after the cancellation.

3. RATIONALE FOR THE PROPOSED SHARE BUY-BACK

The potential benefits of a share buy-back exercise to our Company and our shareholders are as follows:-

- Where our Directors resolve to cancel the Shares so purchased, the EPS of our Group is expected to be enhanced as a result of the reduction in the total number of issued Shares as described in Section 5 on "Effects of the Proposed Share Buy-Back", thereby enabling long term and genuine investors to enjoy any potential corresponding increase in the value of their investments in our Company;
- Where the Shares bought back are retained as treasury shares, our Directors would have an option to distribute these Shares as dividends to reward shareholders;
- Our Company may be able to reduce any unwarranted volatility of its Shares and assist to stabilise the supply, demand and price of its Shares in the open market, thereby supporting the fundamental value of its Shares.

4. **POTENTIAL ADVANTAGES AND DISADVANTAGES OF THE PROPOSED SHARE BUY-BACK**

The financial resources of our Group may increase if the purchased Shares held as treasury shares are resold at prices higher than their purchase price. Other advantages of the Proposed Share Buy-Back are outlined in Section 3 on the “Rationale for the Proposed Share Buy-Back”.

The Proposed Share Buy-Back, if implemented will reduce the financial resources of our Group and may result in our Group foregoing better investment opportunities that may emerge in the future or, at the least, deprive our Company and our Group of interest income that can be derived from the funds utilised for the Proposed Share Buy-Back. It may also result in a lower amount of cash reserves available for dividends to be declared to shareholders as funds are utilised to purchase Shares. In the event that the Proposed Share Buy-Back is funded by bank borrowings, our Company’s net cash flow may decline to the extent of the interest costs associated with such borrowings.

Nevertheless, the Proposed Share Buy-Back is not expected to cause any potential material disadvantage to our Company or its shareholders as any share buy-back exercise will be undertaken only after in-depth consideration of the financial resources of our Group and of the resultant impact on you. Our Board, in exercising any decision on the Proposed Share Buy-Back, will be mindful of the interests of our Company and our shareholders.

5. **EFFECTS OF THE PROPOSED SHARE BUY-BACK**

On the assumption that the Proposed Share Buy-Back is carried out in full, the effects of the Proposed Share Buy-Back on the total number of issued Shares, NA, working capital, EPS and dividends of our Company are set out below:-

5.1 **Total Number of Issued Shares**

For illustration purposes, in the event our Company acquires all the Shares authorised under the Proposed Share Buy-Back and such Shares so acquired are cancelled, the proforma effects on the total number of issued Shares as at LPD will be as follows:-

	No. of Shares as at LDP	After the Proposed Share Buy-Back	
		Minimum Scenario	Maximum Scenario
		No. of Shares	No. of Shares
Total number of issued Shares	11,626,767,901	11,626,767,901	11,626,767,901
Assuming full exercise of options under ESOS	--	--	128,860,508
Assuming full exercise of warrants	--	--	1,802,303,188
Enlarged total number of issued Shares	11,626,767,901	11,626,767,901	13,557,931,597
Treasury shares	58,675,950	58,675,950	58,675,950
Maximum no. of Shares that may be purchased pursuant to the Proposed Share Buy-Back (10%)	--	1,104,000,840	1,297,117,209
Resultant number of issued Shares after Proposed Share Buy-Back and cancellation	11,568,091,951	10,464,091,111	12,202,138,438

However, the Proposed Share Buy-Back is not expected to have any effect on the total number of issued Shares if the Shares so purchased are retained as treasury shares but the rights attaching to the treasury shares as to voting, dividends and participation in the other distribution or otherwise will be suspended. While these Shares remain as treasury shares, the Act prohibits the taking into account of such Shares in calculating the number or percentage of Shares in our Company for any purpose whatsoever including substantial shareholdings, takeovers, notices, requisitioning of meetings, quorum for meetings and the result of a vote on a resolution at a meeting.

5.2 NA

The Proposed Share Buy-Back is likely to reduce the NA per Share of our Group if the purchase price exceeds the NA per Share of our Group at the time of purchase and will increase the NA per Share of our Group if the purchase price is less than the NA per Share of our Group at the time of purchase.

For Shares so purchased which are retained as treasury shares, the NA of our Group will increase upon the resale of these Shares, assuming that a gain has been realised. Again, the quantum of the increase in NA will depend on the actual selling price of the treasury shares and the number of treasury shares resold.

5.3 Working Capital

The Proposed Share Buy-Back will reduce the working capital of our Group, the quantum of which depends on, amongst others, the number of Shares eventually purchased and the purchase price of the Shares. The cash flow of our Group will be reduced relatively, depending on the number of Shares eventually purchased and the purchase price of the Shares.

For Shares so purchased which are kept as treasury shares, upon its resale, the working capital and cash flow of our Company will increase. Again, the quantum of the increase in the working capital and cash flow will depend on the actual selling price of the treasury shares and the number of treasury shares resold.

5.4 EPS

The effects of the Proposed Share Buy-Back on the EPS of our Group are dependent on the purchase price of the Shares and the effective funding cost or loss in interest income to our Group. If the Shares purchased by our Company are cancelled, the net EPS of our Company may increase as a result of the reduction in the total number of issued Shares.

5.5 Dividends

Assuming the Proposed Share Buy-Back is implemented in full and the dividend quantum is maintained at historical levels, the Proposed Share Buy-Back will have the effect of increasing the dividend rate of the Company as a result of the suspension of the rights of treasury shares to dividend entitlement or the reduction in the number of issued ordinary shares of the Company in the event of the treasury shares being cancelled.

As stated in Section 2 of this Statement, our Board has the option of distributing treasury shares as share dividends to our shareholders.

On 21 August 2025, the Board declared an interim dividend of 5 sen per Share for the financial year ended 30 June 2025 which was paid on 23 October 2025.

No final dividend has been recommended for payment for the financial year ended 30 June 2025.

6. PURCHASE OF SHARES, RESALE, TRANSFER OR CANCELLATION OF TREASURY SHARES IN THE PRECEDING 12 MONTHS

There were no purchase of Shares, resale, transfer or cancellation of treasury shares in the 12 months preceding the LPD. As at LPD, our Company held a total of 58,675,950 treasury shares.

7. PUBLIC SHAREHOLDING SPREAD

As at LPD, the public shareholding spread of our Company stood at 43.87%. The public shareholding spread is expected to be reduced to 37.95% if the Proposed Share Buy-Back is implemented in full, with all the Shares so purchased are either held as treasury shares or cancelled and assuming the shareholdings of the Directors, substantial shareholders or person connected with them remain unchanged and no ESOS options and warrants are exercised into new Shares. However, our Company will ensure that prior to any share buy-back exercise, the public shareholding spread of at least 25% is maintained.

8. IMPLICATION RELATING TO THE CODE

Based on the register of substantial shareholders of our Company as at LPD, it is unlikely that the provisions on mandatory takeover under the Code will be triggered even if the Proposed Share Buy-Back is implemented in full.

9. HISTORICAL SHARE PRICES

The monthly highest and lowest prices of the Shares traded on Bursa Securities for the preceding 12 months from the LPD are as follows:
